

Company Profile

Traders in New & Used Quality Building Materials

Our Story

Reef Salvage is a South African company focused on giving quality building materials a second life. Through responsible salvage, demolition, and reuse, we help customers reduce costs while supporting sustainable construction.

Mission

To recover, recycle, reuse, and repurpose quality building materials through safe demolition, professional salvage and dependable supply, creating value for our customers and reducing environmental impact.

Vision

To become South Africa's trusted leader in reclaimed building materials and sustainable demolition solutions.

Core Values

- Integrity
- Quality
- Safety
- Sustainability
- Customer Service
- Innovation

What We Do

- Buy and sell new and reclaimed building materials.

- Selective demolition and strip-outs.
- Building salvage and material recovery.
- Project support for residential and commercial developments.
- Supply of reusable construction materials.

Demolition

We undertake careful demolition and strip-out projects with an emphasis on recovering reusable materials, minimizing waste, and maximizing value.

Salvage

Our salvage teams recover doors, windows, timber, roofing, steel, sanitaryware and other reusable materials for resale and reuse.

Projects

We partner with property owners, contractors, and developers to manage salvage and demolition projects from planning through material recovery.

Sustainability

Every item recovered is one less item sent to landfill. Reef Salvage promotes a circular economy through our philosophy: Reuse. Recycle. Repurpose.

Why Choose Reef Salvage

- Cost-effective solutions
- Experienced team
- Reliable supply
- Sustainable practices
- Quality reclaimed materials
- Professional service
